DTG, screen printing with polyester inks

GENERAL DECORATION TIPS FOR ALL B&C RESET OUTERWEAR

1. Always test your chosen method before full production.
2. Use anti-migration layers when printing or transferring.
3. Avoid printing over seams, zippers, or quilting.
4. Adjust temperature and pressure to avoid fabric shine or distortion.
5. Use specialised DTF for outerwear.

Disclaimer: These recommendations are based on B&C's internal print tests. Results may vary depending on equipment, inks, and settings used. Always run your own test to ensure optimal results.
